

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Important People Drug and Alcohol interview

Hi, my name is _____ and during the course of our interview, I am going to ask you some questions about the people that have been important to you during the past six months.

These people may be family members, friends, people from work, or anyone that you see as having had a significant impact on your life, regardless of whether or not you liked them.

The people I want to know about are those with whom you've had contact in the past six months.

If you have any questions during the interview, please do not hesitate to ask. Now, before we begin, do you have any questions?
