

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Section A. Instruction Universe: all students

The next five questions ask about e-cigarette advertisements. Do not think about cigarettes or other tobacco products when answering these questions.

Question Universe: all students

1. When you are using the Internet, how often do you see ads or promotions for e-cigarettes?
